

Welcome to Velo

Getting your ads live — a quick walkthrough for new clients

FACEBOOK & INSTAGRAM AD ACCOUNT SETUP

What We Need From You

Three quick things and we're ready to launch your campaigns.

Secure Access

Add us as a Partner in Meta Business Manager. No passwords — you stay in control.

Payment Method

A card on file on your ad account. Ad spend bills directly to you, always.

Brand Assets

Logo, photos or video, and any brand guidelines we should follow in your ads.

Step 1 — Grant Partner Access

1

Go to Business Settings

business.facebook.com/settings

2

Open Partners

Users → Partners → Add → “Give a partner access to your assets”

3

Enter our Business ID

Paste Velo's Business Manager ID and click Next

Velo Business Manager ID

1670265237374847

This ID is safe to share — it only lets a business request access, never grants it automatically.

Step 2 — Assign the Right Assets

Check these boxes and assign us the access level shown.

Manage

Step 3 — Add Your Payment Method

Ads Manager → Billing (or Business Settings → Payment Methods)

- Your card bills directly through Meta — spend goes straight to you, no markup.
- We never see or store your card details.
- You're never waiting on us to front ad spend before a campaign can launch.

You're All Set

Once access and your payment method are confirmed, we'll get your first campaign into review.
